### ***STUDENT CONDUCT***

#### **I. STUDENT CONDUCT**

The Board of Education expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, district personnel and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior.

District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others.

Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct.

Students will be bound by the Code of Conduct whenever they are on any school district property, or are engaged in or attending any school function, regardless of the time or reason(s) for their presence. Any direct or personal act or behavior which is prohibited under the Code of Conduct is also prohibited when performed by use of computers, the internet, cell phones, telephones, or other communications media when the communication originates from or ends on District property or at any school or school related function, or may in the judgment of District officials disrupt or interfere with the educational process; or pose a threat to the safety of any person lawfully on District property or at a school or school related function. Disciplinary consequences will be progressive in nature.

With regards to weapons, in particular, it is the intention of the Board through this Code to impress upon students that the mere possession of weapons is inherently dangerous to everyone in the school environment and therefore must not be brought onto school property or, if discovered, must be reported or turned into the school office immediately.

A weapon is defined as: a firearm as defined in 18 USC §921 for purposes of the Gun-Free Schools Act. It also means any other gun, BB gun, pistol, revolver, shotgun, rifle, machine gun, disguised gun, dagger, dirk, razor, stiletto, switchblade knife, gravity knife, brass knuckles, sling shot, metal knuckle knife, box cutters, cane sword, electronic dart gun, Kung Fu star, electronic stun gun, pepper spray or other noxious spray, explosive or incendiary bomb, or other device, instrument, material or substance that can cause physical injury or death when used to cause physical injury or death.

Representing to any person, for the purposes of sale or distribution, that any substance, irrespective of actual composition, is an alcoholic beverage or an illegal substance, shall be deemed actionable within the meaning of this section as an attempted possession, possession sale or distribution of a prohibited product.

F. Misconduct on a School Bus /Transportation

It is crucial for students to behave appropriately while riding on district buses, public transportation, or public transportation facility, while in transit to and from school, to ensure their safety and that of other passengers and to avoid distracting the bus driver. Students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior. Acts such as excessive noise, standing, pushing, shoving and fighting will not be tolerated.

G. Academic Misconduct

Examples of academic misconduct include but are not limited to:

- 1. Plagiarism;
- 2. Cheating;
- 3. Copying;
- 4. Altering records; and
- 5. Assisting another student in any of the above actions.

H. Other

Instigating or encouraging another person(s) to violate the Code of Conduct.

In addition to the preceding standards of conduct, the District prohibits discrimination and harassment against any student by employees or students that creates a hostile environment by conduct (with or without physical conduct) or verbal statements, intimidation, or abuse. We consider a hostile environment to be created when actions or statements directed at a student either (1) has or would have the effect of unreasonably and substantially interfering with a student’s educational performance, opportunities, or benefits, or with the student’s mental, emotional, or physical well-being, including conduct that reasonably causes or would reasonably

be expected to cause emotional harm, or (2) reasonably causes or would reasonably be expected to cause physical injury to a student or to cause a student to fear for their physical safety.

This prohibition applies to all acts of harassment or bullying that occur on school property or at a school function, as well as, to acts occurring off school property when (i) those acts create or would foreseeably create a risk of substantial disruption within the school environment, and (ii) it is foreseeable that the conduct, threats, intimidation or abuse might reach school property.

The prohibition of discrimination includes, but is not limited to, threats, intimidation, or abuse based on the student's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practices, disability, sexual orientation, gender, or sex.

### ***DRESS CODE***

#### **I. STUDENT DRESS CODE**

##### **A. Intent**

It is the intent of the Dress Code to foster an environment that is sanitary, safe and conducive to teaching and student learning. It is also intended to provide guidance to prepare students for their role in the work place and society.

##### **B. General Obligations**

All students are expected to give proper attention to personal cleanliness and to dress appropriately for school and school functions.

Students and their parents have the primary responsibility for acceptable student dress and appearance.

All district personnel should help students develop an understanding of appropriate appearance in the school setting. Teachers and all other school personnel should exemplify and reinforce acceptable student dress.

The dress code applies at any time that students are on District property and attending a school function, wherever located.

##### **C. Student's Dress and Appearance**

A student's dress, grooming and appearance, including hair style/color, jewelry, make-up, and nails, shall:

1. Be safe, appropriate and not disrupt or interfere with the educational process;
2. Extremely brief garments, such as men's "muscle shirts," tube tops, mid-drifts, net tops, halter tops, tank tops, spaghetti straps, plunging necklines (front or back) and see-through garments are not appropriate and will not be allowed. For school purposes, exposure of the male or female navels or buttock area, bare chests, or cleavage is not appropriate and not permitted;
3. Underwear and undergarments must be completely covered with outer clothing. When appropriate, pants or slacks are to be cinched with a belt of appropriate size for the student's waist;
4. Footwear, such as shoes, sneakers and clogs must be worn at all times. Footwear that is a safety hazard will not be allowed;
5. Hats and/or headgear will not be worn during the instructional day except for medical, religious and/or school approved purposes;

6. Clothing shall not include items that are vulgar, obscene, libelous or denigrate others on account of race, color, religion, creed, nationality, gender, sexual orientation or disability;
7. Clothing shall not promote or endorse the abuse of alcohol, tobacco, and/or illegal drugs; or encourage illegal or violent activities; and
8. Clothing accessories such as heavy chains or spiked jewelry which pose a potential threat to student safety shall not be permitted;

D. Violations of Dress Code

Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending item and, if necessary or practical, replacing it with an acceptable item.

Any student who refuses to do so shall be subject to disciplinary action.

Any student who repeatedly fails to comply with the dress code shall be subject to further discipline, up to and including out-of-school suspension.

II. STAFF DRESS CODE

Teachers and staff are expected to use their professional judgment to dress in a manner consistent with the duties and responsibilities of a public school employee. At minimum teacher and staff attire shall be governed by the same terms and conditions as those set forth for students.

## ***CHAPTER 5***

### ***CELL PHONE & USAGE OF ELECTRONIC DEVICES***

#### **I. CELL PHONE USAGE DURING THE SCHOOL DAY**

- A. Elementary and middle school students are not permitted to use cell phones and electronic devices during the school day unless given permission by the supervising staff member.
- B. At the high school level, students will be permitted to use cell phones and electronic devices before school begins (7:15 - 7:45), during their assigned lunch period, and between periods. Cell phone and electronic device use will not be permitted in academic settings, including study halls, unless specific permission is granted by the supervising staff member for academic reasons. Cell phone/electronic device use must be appropriate. Please see the acceptable technology use policy for more information; specifically: "Any direct or personal act or behavior which is prohibited under the Code of Conduct is also prohibited when performed by use of computers, the internet, cell phones, telephones, or other communications media when the communication originates from or ends on District property or at any school or school related function, or may in the judgment of District officials disrupt or interfere with the educational process; or pose a threat to the safety of any person lawfully on District property or at a school or school related function."

#### **II. VIOLATIONS OF CELL PHONE POLICY**

Cell phones and electronic devices, when utilized appropriately, have the potential to serve as valuable instructional tools, but they also have the potential to serve as significant distractions to the academic process. If a student does not abide by the expectations identified in Section I, the student will face consequences as detailed below.

#### **III. PENALTIES**

- A. Elementary and middle school students who violate this policy will be subject to disciplinary consequences as outlined in Chapter 6 of the Code of Conduct.
- B. High school students who fail to abide by acceptable use guidelines may lose the privilege of using any electronic devices while in school, at the discretion of school administrators, and may be subject to additional consequences as outlined in Chapter 6 of the Code of Conduct.

#### **IV. DISTRICT COMPUTER EQUIPMENT/WEBSITES/E-MAIL USED BY ANY PERSON**

No person using District computer equipment, faxes, software owned, leased or controlled by the District, or websites or Internet access provided by the District, has a reasonable expectation of privacy with respect to such equipment, software, websites, e-mail or Internet access provided by the District.

The District reserves the right to monitor the use of its equipment and software, and to monitor e-mail, websites and Internet access using School District equipment without prior notice or consent.

## ***CHAPTER 6***

### ***THE DISCIPLINE PROCESS***

#### **I. REPORTING AND RESPONDING TO VIOLATIONS**

##### **A. REPORTING POSSIBLE VIOLATIONS**

All students that observe a violation of the code of conduct are expected to promptly report the violation to a teacher, counselor or principal.

Any student observing a weapon, tobacco, alcohol or illegal substance is to report this information immediately to a teacher, principal or superintendent.

Additionally a student must report knowledge of someone making a threat of violence against another person or persons in the school.

District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn investigate the incident, impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction. Any action taken with respect to a complaint initiated by a supervisor shall be reported back to the reporting staff person.

Any weapon, alcohol, tobacco, illegal substance, or any medication not authorized by a physician found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved.

Local law enforcement will be notified on all code violations that constitute a crime and substantially affect the order of safety and security within the school or on school grounds.

Initial notification to the parents may be made by telephone, followed by a letter that identifies the student, code violation and when appropriate, the possible crime violation.

The building principal or his or her designee will notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the code of conduct and constituted a crime.

All district staff members who are authorized to impose disciplinary measures are expected to do so in a prompt, fair and lawful manner.

##### **B. Responding to Reports of Possible Harassment or Discrimination**

1. In addition to the procedures described below for removal of disruptive students and possible suspension from attendance, the District provides a procedure for responding to reports of possible discrimination or harassment against students by another student, an employee, or any other person on school property or at a school function. The process is described in the District's Equal Opportunity and Nondiscrimination Policy.

2. The District has also designated a Dignity Act Coordinator for each school. Those coordinators are:

(Brian Read, High School, 839-6316, [bread@svcsd.org](mailto:bread@svcsd.org))

(Peter Scialdone, High School, 839-6320, [pscialdone@svcsd.org](mailto:pscialdone@svcsd.org))

(Natalie Powers, High School, 839-6321, [npowers@svcsd.org](mailto:npowers@svcsd.org))

(Gabrielle Duell, Middle School, 839-6392, [gduell@svcsd.org](mailto:gduell@svcsd.org))

(Peter Madden, Middle School, 839-6371, [pmadden@svcsd.org](mailto:pmadden@svcsd.org))

(Ed Ryan, Middle School, 839-6378, [eryan@svcsd.org](mailto:eryan@svcsd.org))

(Mark Putnam, Elementary School, 839-6339, [mputnam@svcsd.org](mailto:mputnam@svcsd.org))

(Paul Dischiavo, Elementary School, 839-6355, [pdischiavo@svcsd.org](mailto:pdischiavo@svcsd.org))

The Dignity Act Coordinators are trained in methods to respond to human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practices, disability, sexual orientation, gender, and sex. They are available to speak with any person who has witnessed possible discrimination or harassment, or if that person has experienced treatment that may be prohibited discrimination or harassment.

#### C. No Retaliation for Reporting

1. No act of retaliation may be directed at any person who makes a good faith report of conduct by another person that may reasonably be a violation of this Code, or who assists in, or is part of, the investigation of such a report. To engage in such retaliation is considered a violation of the Code.

## II. DISCIPLINARY PENALTIES, PROCEDURES AND REFERRALS

### A. The Disciplinary Process

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age;
2. The nature of the offense and the circumstances which led to the offense;
3. The student's prior disciplinary record;

4. The effectiveness of other forms of discipline;
5. Information from parents, teachers and/or others, as appropriate; and
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. The District may, however, impose any level of discipline, even for a first violation, that is proportionate to the misconduct at issue. If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

Responses to acts of harassment, bullying and/or discrimination against students by students shall use measured, balanced, and age-appropriate remedies and procedures, with the goals of prevention and education, as well as, intervention and discipline. We will consider the nature and severity of the conduct, the developmental age of the student engaging in the conduct, the actor's prior disciplinary record, and the impact of the conduct on the student at whom it was directed.

#### B. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being considered for the violation(s) for which the student is charged. In all cases, regardless of the penalty being imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and are to investigate, to the extent necessary, the facts surrounding the alleged misconduct.

All students are to be given the opportunity to present their version of the facts surrounding the alleged violations to the appropriate school personnel prior to their imposition of a disciplinary penalty.

Written warning and/or written notification is to be given to the parent(s) or legal guardian(s) of a student who faces a penalty or penalties in excess of an oral warning.

#### C. Penalties and Who May Impose Them

Students who are found to have violated the district's code of conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

1. Oral warning - any member of the district staff;
2. Written warning - bus drivers, hall and lunch monitors, coaches, guidance counselors, teachers, assistant principals, principal, superintendent;
3. Written notification to parent - bus driver, hall and lunch monitors, coaches, guidance counselors, teachers, assistant principals, principal, superintendent;

4. Detention - teachers, assistant principals, principal, superintendent;
5. Suspension from transportation - director of transportation, assistant principals, principal, superintendent;
6. Suspension from athletic participation - coaches, athletic director, assistant principal, principal, superintendent;
7. Suspension from social or extracurricular activities - activity director, assistant principals, principal, superintendent;
8. Suspension of other privileges – assistant principals, principal, superintendent;
9. In-school suspension – assistant principals, principal, superintendent;
10. Removal from classroom by teacher - teachers, assistant principals, principal;
11. Short-term (five days or less) suspension from school – principal, superintendent, board of education;
12. Long-term (more than five days) suspension from school - superintendent, board of education;
13. Permanent suspension from school - superintendent, board of education; and
14. Restitution (in the instance of vandalism or other actions that result in the damage of personal or school property) – superintendent and board of education.

D. Types of Disciplinary Penalties

1. Detention

Teachers, principals and the superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Parents will be notified of the detention. Transportation home from after school detention shall not be provided by the school.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring written notice of such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extra curricular activities and other privileges

A student subject to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the penalty involved.

4. In-school suspension

The board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning.

As such, the board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school" suspension. A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Teacher disciplinary removal of disruptive students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in a supervised location; (2) sending a student to the principal's office for the remainder of the class time only; or (3) sending a student to a staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct:

- a. A disruptive student is a student who is disruptive of the educational process or interferes with the teacher's authority over the classroom.
- b. A disruption of the educational process or interference with a teacher's authority occurs when a student demonstrates an unwillingness to comply with the teacher's instructions or violates the teacher's classroom behavior rules.

The teacher must complete a district-established disciplinary referral form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher

must leave the form with and meet with the principal or their designee prior to the beginning of classes on the next school day.

Within 24-hours after the student's removal, provided that if such twenty-four period does not end on a school day, it shall be extended to the corresponding time on the next school day, the principal or another district administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means such that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

The principal may require the teacher who ordered the removal to attend the informal conference.

If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within forty-eight hours of the student's removal. If the forty-eight hour period does not end on a school day, it shall be extended to the corresponding time on the second school day next following the pupil's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

- a. The charges against the student are not supported by the evidence;
- b. The student's removal is otherwise in violation of law, including the district's code of conduct; and
- c. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The principal or his or her designee may overturn a removal of a student at any point between receiving the referral form issued by the teacher and the close of business on the school day following the forty-eight hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal or his or her designee makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a complete log (on a district provided form) for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

6. Suspension from school

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. Short-term (five days or less) suspension from school

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice

and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within ten business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the board of education with the district clerk within ten business days of the date of the superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within thirty days of the decision.

b. Long-term (more than 5 days) suspension from school

When the superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, at his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept or reject all or any part thereof.

An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within ten (10) business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions

of the board may be appealed to the Commissioner within thirty (30) days of the decision.

c. Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well being of other students, school personnel or any other person(s) lawfully on school property or attending a school function.

7. Minimum Periods of Suspension

a. Students who are repeatedly disruptive of the educational process and/or substantially interfere with a teacher's authority over the classroom.

Any student, other than a student with a disability, who is repeatedly disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, will be suspended from school for at least five days.

If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension.

If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five (5) day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one (1) year suspension for possessing a weapon.

b. Students who commit violent acts

Any student, other than a student with a disability, who is found to have committed a violent act, shall be subject to suspension from school for a period of at least five (5) days. If the proposed penalty is the minimum of a five (5) day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five (5) day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five (5) day suspension on a case-to-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one (1) year suspension for possessing a weapon.

c. Students who bring a weapon to school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least

one (1) calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

1. The student's age;
2. The student's grade in school;
3. The student's prior disciplinary record;
4. The superintendent's belief that other forms of discipline may be more effective;
5. Input from parents, teachers and/or others; and
6. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

E. Referrals

1. Counseling

The Guidance Office shall handle all referrals of students to counseling. Resources include, but are not limited to SPFY, Insight House, School Resource Officer, Social Worker, Psychologist and the Neighborhood Center.

2. Person in Need of Supervision (PINS) Petitions

The district may file a PINS (Person in Need of Supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and/or not attending school as required by part one of Article 65 of the Education Law;
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school ; or
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school; or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

F. Alternative Instruction

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the district will take immediate steps to provide alternative means of instruction for the student with due regard for the nature and circumstances of the particular case.

## ***CHAPTER 7***

### ***DISCIPLINE OF STUDENTS WITH DISABILITIES***

#### **I. GENERAL**

The board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

#### **II. AUTHORIZED SUSPENSIONS OR REMOVALS OF STUDENTS WITH DISABILITIES**

##### **A. Definitions:** For purposes of this section of the code of conduct, the following definitions apply.

A “suspension” means a suspension pursuant to Education Law § 3214.

A “removal” means a removal for disciplinary reasons from the student’s current educational placement other than a suspension and change in placement to an Interim Alternative Educational Setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.

An “IAES” means a temporary educational placement for a period of up to forty-five (45) days, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that enables the student (1) to continue to progress in the general curriculum, (2) to continue to receive those services and modifications, including those described on the student’s current Individualized Education Program (IEP), that will enable the student to meet the goals set out in such IEP, (3) and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

##### **B. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:**

1. The board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting, or suspension for a period not to exceed five (5) consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
2. The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to ten (10) consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has

engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.

3. The superintendent may order additional suspensions of not more than ten (10) consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
4. The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than forty five (45) days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.
5. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to forty-five (45) days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

### III. CHANGE OF PLACEMENT RULE

- A. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
  1. For more than ten (10) consecutive school days; or
  2. For a period of ten (10) consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than ten (10) school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
- B. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

### IV. SPECIAL RULES REGARDING THE SUSPENSION OR REMOVAL OF STUDENTS WITH DISABILITIES

#### A. Role of the Committee on Special Education

The district's Committee on Special Education shall:

1. Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than ten (10) school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than ten (10) school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

2. Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.

B. Student Not Determined to be Eligible Under IDEA & Article 89 – Procedural Safeguards

The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

1. The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
2. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:
  - a. conducted an individual evaluation and determined that the student is not a student with a disability, or
  - b. determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

3. The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement.

The procedural safeguards notice prescribed by the Commissioner of Education shall accompany the notice of disciplinary removal.

4. The parents of a student with disabilities subject to a suspension of five (5) consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five (5) school days shall be divided into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.
6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than ten (10) consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

## V. EXPEDITED DUE PROCESS HEARINGS

- A. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:

1. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the

pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.

2. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
  - a. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.
  - b. If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
3. An expedited due process hearing shall be completed within fifteen business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than forty-five calendar days after receipt of the request for a hearing, without exceptions or extensions.

## VI. REFERRAL TO LAW ENFORCEMENT AND JUDICIAL AUTHORITIES

### A. In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. Where appropriate, the superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

## ***CHAPTER 8***

### ***REASONABLE FORCE***

#### **I. REASONABLE FORCE**

The District recognizes the responsibility of all school personnel, including administrators, faculty and other employees, to see that proper standards of school behavior are maintained. All school personnel are expected to help in maintaining proper levels of supervision.

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any district employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, State regulation provides that reasonable physical force may be used:

- A. To protect oneself, another student, teacher, or any other person from physical injury.
- B. Protect the property of the school or others.
- C. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

## ***CHAPTER 9***

### ***PERSONAL SEARCHES AND INTERROGATIONS***

#### **I. GENERAL**

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district code of conduct. Students are not entitled to any sort of “Miranda”-type warning before being questioned by school officials, nor are school officials required to contact a student’s parent before questioning the student. However, school officials are to inform all students as to why they are being questioned.

An authorized school official may conduct a search of a student’s belongings that is minimally intrusive such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

In addition, the board authorizes the superintendent, building principals, the school nurse and district resource officers to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district Code of Conduct. Searches may be conducted, upon reasonable suspicion, on school property, or during school functions. This would include searches of lockers, hotel rooms, vehicles or other facilities used by students during school sponsored trips, athletic or academic events, in which case the staff-member chaperones or coaches involved in such activity shall be deemed to have the same authority to act that applies to a school administrator on school property.

An authorized school official may search a student or the student’s belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student’s belongings, the authorized school official(s) should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district Code of Conduct, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practical, searches will be conducted in the privacy of administrative offices and, if practicable, students will be present when their possessions are being searched.

#### **II. TYPES (LOCATIONS) OF SEARCHES**

##### **A. Student Lockers, Desks and other School Storage Places**

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent, including the use of drug and bomb sniffing dogs and metal detectors where deemed appropriate. Each student is deemed responsible for the contents of his or her locker.

B. Personal Searches

In general, strip searches will not be conducted by school personnel. However, if the authorized school official considers the situation necessary (ie: safety and urgency require the search). The student's parent, where practicable, will be asked to assist with such a search conducted by law enforcement officials.

III. DOCUMENTATION OF SEARCHES

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

- A. Name, age and grade of student searched;
- B. Reasons for the search;
- C. Name of any informant(s);
- D. Purpose of search (that is, what item(s) were being sought);
- E. Type and scope of search;
- F. Person conducting search and his or her title and position;
- G. Witnesses, if any, to the search;
- H. Time and location of search;
- I. Results of search (that is, what items(s) were found);
- J. Disposition of items found; and
- K. Time, manner and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the item is turned over to the police. The principal or his/her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

#### IV. POLICE INVOLVEMENT IN SEARCHES AND INTERROGATIONS OF STUDENTS

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

- A. A search or an arrest warrant; or
- B. Probable cause to believe a crime has been committed on school property or at a school function; or
- C. Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent(s) cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted unless a crime has been deemed committed on school property or at a school function. The principal or his or her designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

- A. They must be informed of their legal rights;
- B. They may remain silent if they so desire; and
- C. They may request the presence of an attorney.

#### V. CHILD PROTECTIVE SERVICES INVESTIGATIONS

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

## ***CHAPTER 10***

### ***VISITORS TO THE SCHOOL***

#### **I. GENERAL**

The board encourages parents and other district citizens to visit the district's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

- A. A visitor shall be defined as anyone who is not a part-time or full-time staff member or a student of the school.
- B. All visitors to the school must report to a designated office upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. - C. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.

- E. Visitors are not allowed to take class time to discuss individual matters with teachers.
- F. Any unauthorized person on school property will be reported to the principal or his/her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.

#### **II. IN-SERVICE EDUCATION PROGRAMS**

At the start of each school year, the District shall provide all staff with in-service education regarding District policy for conduct on school grounds and at school functions, methods for promoting a safe and supportive school climate, and ways of discouraging discrimination and/or harassment against students by other students or school employees.

#### **III. REGISTERED SEX OFFENDERS**

##### **B. Age Appropriate Restatement Of Policy**

## **APPENDIX C**

### **GUIDELINES FOR STUDENT DISCIPLINE**

#### **I. GENERAL COMMENTS**

- A. The best discipline is that which is administered on-the-spot by the teacher or staff member in control of the situation. When students are sent to the principal's office for minor breaches of discipline, the principal's role as disciplinarian loses its effectiveness. The teacher will gain greater respect from the students in their class if they handle their own disciplinary problems in a firm, fair, and understanding manner.
- B. It has been found by both new and experienced teachers that a strict, "no nonsense" approach in a new teaching situation aids in quickly attaining classroom control. It is always possible to "ease off" later on after rapport with students has been established.
- C. Each teacher is responsible for the conduct of all of the pupils in our school. Discourtesy and misconduct should be noted by a faculty member who witnesses it anywhere. All teachers are expected to supervise behavior in the corridors, during assemblies and other activities, and to monitor student conduct in the lavatories.
- D. Each teacher plays a key role in maintaining discipline. A teacher who prepares adequately and knows what they are going to do should have little trouble with discipline. Their goal of education is learning and if children are taught well and kept busy doing important things, the problems of discipline are reduced.

#### **II. POSITIVE APPROACHES TO DISCIPLINE**

- A. There are many POSITIVE things that YOU, as a teacher, or staff member can do:
  - 1. BE CONSISTENT. Don't suppress certain pupil actions one day, and tolerate them the next.
  - 2. BE FAIR. Treat all pupils as you would like to be treated under similar circumstances.
  - 3. BE BUSINESSLIKE. If the students size you up as a mature, confident person who knows what they are doing, the battle is half won.
  - 4. BE PREPARED. Start each lesson time and know what you are going to say and do. Remember, if you don't direct their activity, someone else will!
  - 5. KEEP YOUR LESSON AND PRESENTATION INTERESTING. Bored students often get into trouble. Interested and involved students seldom do. Provide your pupils with worthwhile work and present it in an enthusiastic and understanding manner.
  - 6. KNOW WHEN TO OVERLOOK. Don't seek trouble. Overlook small things which are unintentional and do not matter. However, be careful that the small things do not snowball.

7. DO NOT BLUFF. Students are quick to see through and lose respect for the teacher who continually threatens but who does nothing about pupil misbehavior.
8. DON'T PRETEND THAT YOU KNOW EVERYTHING. Your students know that you are not infallible, and will respect you if you say: "I don't know, let's look it up."
9. GET TO KNOW YOUR STUDENTS. A series of after-school conferences with an interested, understanding teacher can do much to help students find and accept themselves.
10. KEEP YOUR SENSE OF HUMOR. The teacher who combines firmness with a sense of humor to fit the occasion is hard to beat.
11. BE PROMPT. Get to class before the students. Greet them as they enter.
12. BE CHEERFUL. Your friendliness and helpfulness will serve as a strong model for your student.
13. BE ALERT. Some classroom discipline problems arise when teachers fail to "realize" what's going on. Be active in the classroom.

### III. TECHNIQUES FOR HANDLING DISCIPLINE PROBLEMS

- A. There comes a time when the best-laid plans by the most astute teacher fail to head off a discipline problem. What to do or what not to do, then becomes the question. Here are a few hints that might help:
  1. Within a class or study hall you may find centers from which disturbances just "naturally" emanate. Separate the pupils responsible by assigning them different, widely separated seats.
  2. Isolate the student who chronically disturbs others in a corner of the room or near your desk.
  3. If the general noise level of the students is high, just stop talking and stand silently before the class. You will be surprised how quickly your "silent message" is received.
  4. If a personality clash seems to be developing between you and a particular student, an individual conference may prove helpful. Some points of discussion might well be: The role of the student, role of the teacher, class conduct effect of his actions on others, purpose of your class, purpose of being in school, etc.
- B. When is it advisable for you to refer a troublemaking student to the principal's office? As mentioned previously this action should be taken only as a last resort and not as an easy way out of an uncomfortable situation. There are really three situations that call for referral.
  1. For students who chronically fail to do their work in spite of all your efforts on their behalf, your only alternative may be to submit a written request to the building principal. This action on your part presumes, of course, that you have informed the student that he

is behind in his work, have counseled individually with him to discover possible personal problems, have requested the assistance of the guidance department, and have been in touch with the student's parents.

2. If a pupil continually tests your authority by directly challenging you or through willful disobedience, you have no recourse but to inform the building principal. Notify the principal via intercom or by a written report and be certain that all verbal communications are followed with a written report.
3. If a pupil flagrantly violates an administrative or Board of Education ruling such as tobacco possession on the school grounds or disobeying student driving regulations the principal should immediately be informed. Notify the building principal via intercom and follow up with a written report.
